PROJECTS

NearAIIMS – Short-Term Stays for AIIMS Raipur Patients | Live Demo
Tech Stack: React, Node.js, Express, MongoDB, Cloudinary, JWT, Vercel, Render | **GitHub**

- Built and deployed a full-stack MERN application that helps patients and families traveling to AIIMS Raipur for extended treatment find short-term stays directly from nearby homeowners
- Developed a two-sided booking system (request, accept, decline) with owner-only authorization and server-side date-conflict prevention
- Implemented secure authentication using JWT in httpOnly cookies, bcrypt password hashing, React Auth Context and protected routes, and resolved cross-domain cookie issues between the two hosts
- Engineered a searchable, filterable property listing UI backed by dynamic MongoDB queries, with image uploads handled via Multer and Cloudinary

Shortie – URL Shortener Service | Live Demo
Tech Stack: React, Node.js, Express, MongoDB, Render | **GitHub**

- Built and deployed a full-stack URL shortener, generating unique short codes from an atomic MongoDB counter encoded in Base62, with retry handling for duplicate-code collisions
- Implemented custom aliases (validated, with a reserved-word blocklist) and optional link expiry that returns HTTP 410 for expired links
- Added click tracking, a stats endpoint, and a React UI with copy-to-clipboard and QR code generation
- Secured the API with per-IP rate limiting, URL validation (http/https only, length cap), and a health-check endpoint that reports database status

EXPERIENCE

Career Break: Government Exam Preparation Jul 2024 – Aug 2026

E-Commerce Associate, *Bbag.in* Dec 2023 – Jul 2024

- Built approximately 12 responsive seasonal-campaign landing pages in Shopify using HTML and CSS, including high-performing Valentine's Day and Mother's Day campaigns
- Added 1,000+ products and optimized titles, descriptions and metadata to improve SEO and search visibility
